

NCP Secure Enterprise HA Server

for Windows

Release Notes

Major Release: 13.10 r29631
Date: November 2022

Prerequisites

Operating System Support:

The following Microsoft Operating Systems are supported with this release:

- Windows Server 2022
- Windows Server 2019

NCP Secure Enterprise VPN Server ab Version 13.10

Update Prerequisites

Please read the instructions for updates of previous versions in the manual carefully.

Prerequisites for Configuration via Secure Enterprise Management (SEM)

- Secure Enterprise Management Server: Version 5.30 or higher
- Management Plugin Server Configuration: Version 13.10 or higher

1. New Features and Enhancements

None.

2. Improvements / Problems Resolved

Troubleshooting for incorrect display of VPN tunnels in the High Availability Server (HA server)

If call rejection was activated for an SES or if it was set to inactive in the HA server, this incorrectly reduced the displayed number of VPN tunnels. This issue has been fixed.

Load balancing improvement for a large number of licensed VPN tunnels

3. Known Issues

None.

Next Generation Network Access Technology
